**MEMORANDUM FOR: Deputy Director for Support**

**SUBJECT : FPM Letter No. 736-4 -- Full Field Investigations on Competitive Service Employees and Applicants for Critical-Sensitive Positions**

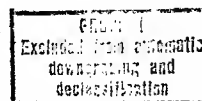

1. This memorandum is for your information only.
2. In reviewing our investigative policies and procedures, we operate under the same general guidelines as set forth in subject letter. Our coverage in many cases will be more comprehensive in scope, but will not go beyond the limits of subject letter, which permits expanded coverage where circumstances so warrant. There appears to be no conflict between our procedures and the twelve points enumerated under the section, "Avoiding the Unwarranted Invasion of Privacy." New regulations or directives are not required with respect to employment-type investigations.
3. With regard to the polygraph program, the individual is not advised of his rights to counsel. Such procedure is not considered applicable to our program because we are not involved in criminal cases. A major area of noncompliance with regard to subject letter is the lack of a directive for the polygraph program other than a memorandum dated 8 August 1957 to the Director of Security from the Acting Director of Central Intelligence setting forth the policy, practices, and procedures with respect to the polygraph program. A directive to reflect current procedures and practices is now in the process of being prepared.
